ABDUL REHMAN

Backend-Focused Full Stack Developer | MERN | APIs, Integrations & AI Automation

Lahore, Pakistan · +92 319 6264318 · rehmanvirk318@gmail.com LinkedIn: www.linkedin.com/in/rehman318 · Portfolio: rehman1.vercel.app

PROFESSIONAL SUMMARY

Backend-focused Full Stack JavaScript Developer with 1+ year of professional experience building MERN applications and complex third-party integrations (Zoho, Google Drive, Dropbox, Oracle). Designs REST APIs, authentication and role-based access systems, and webhook-driven automation for real business systems such as CRM and cloud storage platforms. Also builds AI features end to end, including self-hosted open-source LLMs (Qwen), speech-to-text pipelines (Whisper) and MCP integrations with Claude and ChatGPT.

TECHNICAL SKILLS

- **Languages:** JavaScript
- **Frontend:** React, Tailwind CSS
- **Backend:** Node.js, Express.js, REST API design, webhooks
- **Database:** MongoDB
- **Auth & Security:** JWT, RBAC, OAuth
- **Integrations:** Zoho CRM, Zoho Flow, Google Drive, Dropbox, Oracle
- **AI & Automation:** MCP (Zoho MCP with Claude and ChatGPT), self-hosted Qwen2.5-3B, Whisper, Gemini, AI agents
- **Deployment & Tools:** Server deployment (Hostinger), Git, Postman, Linux

EXPERIENCE

Full Stack Developer (Backend-Focused) Fairchance for CRM, Lahore, Pakistan · Aug 2025 – Present

Backend & APIs

- Architected and developed the backend of Agent Desk CRM, integrating Zoho CRM APIs for real-time data synchronization and workflow automation
- Designed scalable REST APIs with secure JWT authentication and role-based access control

- Implemented webhook-based automation to sync data between internal systems and external CRMs
- Optimized backend performance and data handling for production usage

Cloud Storage Platform

- Built a WorkDrive-like cloud storage platform with file uploads, sharing, folder hierarchy and permission management
- Integrated Google Drive and Dropbox APIs for external file storage and syncing

Integrations

- Built a two-way sync between Zoho and a client's Oracle database using Zoho Flow, webhooks and third-party integrations
- Connected a client's Oracle ERP environment to Zoho with Zoho Flow and Deluge, and integrated Zoho with other applications and local environments through APIs

AI Features & Automation

- Deployed Qwen2.5-3B on a client's own server and built flows on top of it to answer queries about the client's application
- Built a call-recording pipeline: Whisper (medium) transcribes calls, an LLM (Qwen, later Gemini) generates summaries and call notes, and the notes are pushed back into Zoho CRM automatically
- Connected Zoho MCP to Claude and ChatGPT, enabling AI-driven creation of modules, fields, workflows, dashboards and reports, plus scheduled automations such as AI triage of new support tickets

Frontend

- Contributed to frontend dashboards and UI flows using React

KEY PROJECTS

Agent Desk CRM (MERN + Zoho Integration) Designed and developed a CRM system integrated with Zoho CRM APIs, enabling automated lead management, real-time data syncing and workflow automation.

WorkDrive System (Cloud Storage Platform) File management system with upload, sharing, access control and folder structure, integrated with Google Drive and Dropbox for external storage syncing.

AI Call Transcription & Notes Pipeline *(client project, name confidential)* Whisper-based transcription with LLM summarization that writes call notes into the CRM automatically.

Self-Hosted LLM Assistant *(client project, name confidential)* Qwen2.5-3B deployed on the client's server to answer questions about their application.

ADDITIONAL CLIENT PROJECTS

Zoho ⇄ Oracle Two-Way Data Sync *(client project, name confidential)* Built a two-way sync between Zoho and the client's Oracle database using Zoho Flow, webhooks and third-party integrations, keeping both systems in step without manual data entry.

Zoho MCP + Claude Automation *(client project, name confidential)* Connected Zoho MCP to Claude to create custom modules and fields, workflows, functions, dashboards and reports, and set up scheduled automations such as AI inspection of new Zoho Desk tickets with the related customer details.

EDUCATION

BS Computer Science · Sep 2021 – May 2025 University of Agriculture Faisalabad, Toba Tek Singh Campus
